SHIELD

SITE PROTECTION

TIMco

PROTECTIVE CARPET FILM

USER GUIDE

- For single use only
- Always test the product for 48 hours on an area of carpet prior to use.
- Do not leave this product in place for more than 30 days.
- Do not use on hard surfaces, such as ceramic tile, linoleum, vinyl flooring, hardwood and marble.
- Where applicable ensure underfloor heating is switched off and remains off during application of Shield to the floor surface.
- If subjected to extreme conditions or high temperature, direct sunlight, heavy traffic or outdoor exposure, it is recommended you replace the protective carpet film weekly.
- Designed for use on synthetic carpets only. Do not use with wool or oriental carpets. Not suitable for use on rugs, worn carpets or loose fitted carpet tiles.
- Not recommended for use on newly laid carpets where a glue or adhesive has been used. Allow up to 72 hours for any vapours to evaporate before laying the film.
- Do not apply to a damp surface which will prevent any moisture from evaporating and could cause discolouration of carpet fibres.
- Do not store or use above 25°C or below 5°C. The product should be stored/kept at room temperature 24 hours prior to application.
- USE WITHIN 12 MONTHS OF MANUFACTURE DATE (SEE INNER CORE LABEL).

Fire Rated to both,
BS EN ISO 9239-1:2002
BS EN ISO 11925-2:2002

Easy way to protect
your carpets

Ideal protection from spillages, debris,
heavy foot traffic during building
